

Indiana's Telephone Privacy Law works just fine. The Consumer Bankers Association's filing of a complaint with the FCC is totaly FALSE. We don't want our Indiana Telephone Privacy Law set aside by some STUPID federal judge or the FCC. The Consumer Bankers Association complaint is totally without merit. All these banks want to do is defeat the law and then invade our privacy with unwanted telephone solicitation calls. They are just a bunch of greedy bankers looking for money. Please REJECT their petition with the FCC to set aside Indiana's law. The law works just fine now -- we do not want some STUPID, DISHONEST federal judge wrecking this good law.

Thank you.

Dennis Whittaker
